PROFILE

I am a student of computer science, web developer, and problem solver with expertise in HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL. He has experience in building responsive and dynamic web applications, including an electronics shop management system. Currently pursuing proficiency in C++ programming, Aminul is committed to leveraging his skills to solve complex challenges and deliver impactful results.

ACADEMIC PROJECTS

Online Electronics Shop 2030 - PRESENT
Github Link: <https://github.com/aminulcste/Electronic-Shop>

- **Inventory Management:** Efficiently handles product stock levels, updates, and categorization.
- **Sales Tracking:** Records transactions, generates invoices, and maintains a sales history.
- **User Interface:** Provides a responsive and user-friendly design for seamless navigation and functionality.

Small Cricbuzz 2025 - 2029
Github Link: <https://github.com/aminulcste/CRICKET-MANAGEMENT-SITE>
